A. M. SCOTT, A PROMINENT MASON DEAD

Prof. A. M. Scott, for many years one of the leading citizens of Headland and one of the most prominent Masons in the state, died at his home last night about 8:00 o'clock. He had been ill with pneumonia for about 10 days and had attained a ripe old age.

In Masonry, Prof. Scott was one of the best read men in Alabama, and was for many years a lecturer of that organization. He is survived by several sons, who are physicians, and by one brother, who lives in Barbour county.

Many of the Dothan Masons will likely attend the funeral, which will be conducted tomorrow, probably in the afternoon at the family home in Headland. Interment will be made at the Methodist cemetery.

While it is not officially known, it is expected that the Grand Lodge of Masons from Montgomery, will conduct the funeral services of Mr. Scott tomorrow. Mr. Scott was lecturer for the Grand Lodge.

CANADIANS FEAR AEROPLANE RAIDS

Ottawa, Ont., Feb. 15.—Despite a report from Brockville today that Dominion police there believed two toy fire balloons sent up last night at Morrisstown, N. Y., had been mistaken for search lights on aeroplanes flying into Canada, every precaution was taken here tonight against an aerial raid.

The Canadian Parliament met with windows darkened, the toy light extinguished, and the Parliament grounds in darkness. No lights were shown at the Royal Mint or at Ridout Hall where the Dukeless of Connaught and the Princess Patricia awaited the return of the Duke of Connaught from Western Canada.

In Parliament today Sir Wilfrid Laurier, opposition leader, asked what foundation there was for reports that aeroplanes had entered Canada from the United States last night.

Premier Borden replied that he was called on the telephone last night by the Mayor of Brockville who told him that three aeroplanes had crossed the St. Lawrence river and that they had proceeded in the direction of Ottawa.

While Parliament was in session tonight troops mobilized to train service in Europe held a dress rehearsal on army air craft that might appear.

130 Separate Wounds.
Paris, Feb. 15.—The record of 130 wounds received by an army surgeon has been broken by René Vidal, reservist of Rennes.

While in the trenches a shell exploded immediately behind him and the lower part of his body and limbs were riddled with shrapnel.

From 8 in the morning until evening he lay in the trench without even first aid. When he arrived at the auxiliary hospital a thorough examination showed traces of 130 separate and distinct wounds.

His case was considered desperate, as he had lost an extraordinary quantity of blood, but he is now able to get about on crutches.

GREECE WILL AID SERVIAN DEFENSE AGAINST TURKEY

London, Feb. 15.—A Londonঙেলাপত্রিকা transmitted by way of Amsterdam, states that M. Parnass the Greek minister to Turkey, has left the Ottoman capital for Athens but that other foreign officials are remaining in Constantinople. No explanation is offered in the dispatch but it is believed that the diplomatic relations of Turkey and Greece are soon to be broken off. London diplomats assert that Greece believes Turkey responsible for Albanian invasion of Serbia reported in a dispatch received at Paris and declare that she will immediately take steps to defend the territory of her ally in the Balkan wars.

DIPLOMAST ARE TOLD TO LOOK OUT FOR SELES

Washington, Feb. 15.—Virtually all foreign diplomats representing in Mexico City have been instructed to use their own discretion about leaving the country, according to an announcement today by Secretary Bryan. The British and Italian ministers informed of the statement department during the day is to his advice from Mexico reflecting the anxiety of their governments over the situation in Mexico City where food is scarce and the water supply cut off. The situation has been complicated further by General Carranza's decree that none of his subordinate military chiefs shall discuss diplomatic questions. This deprives the diplomatic corps at Mexico City of the privilege of dealing with General Carranza or the de facto authorities. The only alternative is a visit to Coahuila or Nuevo Leon where diplomats are allowed to go but then they will be compelled to return to Mexico City where they will be under guard.

Canada's second contingent will not cross the ocean in transports provided by warships like the first contingent but will go a few hundred men at time on regular passenger ships. This is said to be Lord Kitchener's express wish.

HELD IN OKLAHOMA FOR STEALING CHILD

Oklahoma City, Okla., Feb. 15.

R. G. A. Dunn of Berry Hill was arrested here in connection with the disappearance of his 6-year-old son from the home of the child's mother in Muskogee, Okla., Saturday. The child was found with the minister when taken into custody here.

The warrant asking the arrest of the minister was sworn by Mrs. A. F. who alleges that the child was taken from her home during her absence. The couple had been separated.

Mr. Dunn and the child were taken to Muskogee Sunday.

PRO-GERMAN LETTER GOT HIM INTO TROUBLE

Erlangen, Feb. 15.—John F. Crichton, former vice-consul general at Coburg, Germany, whose pro-German letter printed in October in a newspaper led to accusations when he was transferred to the state department, has been compelled to resign.

It is expected the situation will be fully disclosed at a cabinet meeting.

A state department statement issued tonight said:

HOSPITALITY THAT IS BEAUTIFUL

Comparison of the Modern Chinese Party with the Greek & Venetian Banquets.

It is easy to be hospitable when one has a surplus, but even more delightful to receive the hospitality of those who only have enough. They give you of themselves, the rich often only of their purchases. What they are and what they have, they are free's enough, and they are entirely without that simian and vulgar notion of hospitality that when one enters one must give not what others are accustomed to, which has made the modern dinner such an odious thing. Who would not give and the chef invited to his evening to have a hump and a potato and a pip with Doctor Johnson, or a galette with "Chinese" Gordon or Robert Louis Stevenson, or a curry with Clive, or a buckwheat cake and soup with Lincoln, or a satay and a glass of beer with Gothic? It is a game to punch with Aspinwall, Gladwin, Adolphus or to have a "Skull" over glass of the perfume varying with Bjornson and Ibsen, to be put to sit at the same table with those ridiculous Sven Hedin and Nanjing and Alcott et al. Sound the alarm of the demerit of the most ignorant in the world, come to know other than almost all who independence means. Price Collier in "Sister Mac" n.

GONE BROKE

Doll—I hear the bankers are loaning and out.

Milks—Did the panic do it?

Doll—Oh, no. They escaped that, but they're still the same, trying to fix up some old弛弛 farm.

WAR REVIVER OLD HYMNS.

An interesting feature of the changes in sentiment brought about in the Hardesty march to the South is the new popularity acquired by the old hymns. Even the most stirring Major war song was frowned upon by the authorities, so far as far as with the substitution of the name of Jesus for Joseph (Peter) for that of the title, but the march of a new band and the choir of Baptists round the walls of Atlanta with Gladwin's "Gloria" due to the satisfaction of Union men and Americans alike.

IMPOSSIBLE.

"I noticed there was hair-splitting in that case."

"Couldn't be. Nothing in it but bald facts."

A POOR POP.

"Do you think he's able to support a wife?"

"Why, he can't even maintain a conversation," Judge.

MUCH BETTER.

"Do you treat your cook like one of the family?"

"Oh, dear no! I wouldn't dare to say a cross word to her."

LIVING UP TO ITS NAME.

"Why do you call your play 'The Devil's Master'?"

"Because, stupid, I want it to draw."

SUGAR FROM THE PALM TREE

Shortage of Production From South May Be Obscured for Rest of New Industry.

It will be remembered that the sugar beet industry owes a great deal to the shortage of cane in Europe owing to the supremacy of Britain upon the seas during the Napoleonic wars.

Now it is the beet sugar the world is in danger of becoming short of owing to the European war. It was quite an order, therefore, to hear from Ceylon that:

"A group of business men prominent in Colombo have organized a pioneer company to undertake the manufacture and refining of sugar produced from the palmyra palm. The company is called the Ceylon Sugar Refineries, Ltd., and its intention is to develop the production of sugar in Ceylon which at present imports nearly all it uses from Java. The capital of the company is \$132,150, divided into 10,000 shares of \$12.15 each."

"The palmyra palm is one of 18 varieties of palms growing in Ceylon, from which sugar may be extracted. It is rare about Colombo, and in the up-country, but is the principal palm grown in the northern part of the island, especially in the neighborhood of Jaffna."

VALUABLE ARM FOR POLICE

Revolver That Discharges Cartridges Containing a Suffocating Gas Made Use of in France

Bullet-proof armor and revolvers discharging cartridges containing a suffocating gas were used by the French police in securing a denizen woman who was bring everybody in sight. These weapons were provided for the special police after the downfall of the auto bandits. The gas of their weapons is sodium. The woman had barricaded herself in her room and from her window she fired upon all who passed by.

A force of police, protected by the new breastplates and carrying the gas-discharging revolvers, went to the house. The force is small, but a volley, but one, through the door of her room they fired the gas discharge through a hole in the woodwork. In a few minutes the woman fell unconscious to the floor and the men were able to secure her and take her away without trouble. It is said that though they thus fired concentrated immediate and instantaneous effects.

HAD TO SHOOT DESERTERS.

One hundred and six soldiers of the United States army were shot at at Ft. McPherson, Ga., for desertion. During the losing months of the war of 1861 and 1862 desertion increased itself among the troops, in large measure, was said to the trend of the campaign and the up-to-date of recruiting others. For a month the north there had occurred what seemed almost equality among the number and rate of desertions of the Federal and the Confederacy. Marion, Pa.—The deserters that followed the end of the outbreak at other points became so numerous that General Gaines, commanding the Fourth military district, directed that in future "deserters must be shot." The conditions of the times and the gravity of the offense were cited to justify the harsher measure. Nevertheless, the news of the shooting of the ex-deserters at Pittsburgh evoked a storm of criticism from the newspapers of Boston and other cities.

IMPOSSIBLE.

"I noticed there was hair-splitting in that case."

"Couldn't be. Nothing in it but bald facts."

A POOR POP.

"Do you think he's able to support a wife?"

"Why, he can't even maintain a conversation," Judge.

IN DOUBT.

"Is this the beginning of the end?" asked the new member in church.

"I can't say," replied the deacon; "it may only be the end of the beginning."

SAFETY FIRST!

Harry—I suppose if I knew you, you would never speak to me again.

Harriet—Why do you always look on the dark side of things?

GOOD THING.

"It is a lucky thing Jim's fate doesn't hang on a hair."

"Why lucky?"

"Because he's alive."

MUST BE TRANSFORMED.

"Our trade cannot afford to longer oppose an aroused public sentiment," says Bremen's Wine and Spirit Club, "It would be like Religion standing alone against the German empire." And the editor says that in order to defend the trade successfully big business must make war on the alliance that breed opposition—whether and whatever chances are not a sure to it in affairs to the demands of public sentiment." The

"Union Signal" informs the trade that it is a chance to nations, not a method of public sentiment to do anything, and reminds the Headquarters of the declaration of Mr. McNease, former president of the N.Y.C. Bank, to the effect that "the talk of forming the salmon bank will in the form of a resolution but it is not so." The change necessary to adapt the wine and spirit trade to the demands of public sentiment is nothing less than a transformation.
